

Mrs. McWilliams and the Lightning

Info:

Mark Twain wrote a number of stories that went to print, The Adventures of Huckleberry Finn for example, but he also had his stories adapted for radio. Mrs. McWilliams and the Lightning is a short story that received air time some years ago.

Assignment:

Your assignment is to make a cue sheet from the script. I encourage the use of excel, but an alternate program will also work. Use good judgment as to where you think cues would come in and go out and whether or not you envision underscoring or environmentals. For this project please indicate fade times.

You are responsible for identifying sound effects and music cues.

You are not required to actually create/acquire the sounds for this project.

Due date: Aug. 4th

Digital files may be emailed to brandon.lettow@fscj.edu Please label your files with your last name so they can be easily identified.
